

DENNIS MISENMAWU YESU

Project Manager | End-to-End IT Delivery, Budget & Risk Management | Cross-Functional & Vendor Coordination

Email: dennisyesu4@gmail.com Phone: +234 813 848 4097 Location: Lagos, Nigeria LinkedIn: [linkedin.com/in/dennisyesu](https://www.linkedin.com/in/dennisyesu)

PROFESSIONAL SUMMARY

Project Manager with 5+ years owning IT and digital initiatives end to end, from initiation through closure, across Fintech, EdTech, E-commerce, and SaaS. I build and maintain the project plans that keep timelines, milestones, and risk visible, manage budgets and vendor contracts so resources aren't wasted, and coordinate across genuinely different technical and business teams (engineering, risk and compliance, infrastructure, and product, plus marketing, operations, and support) rather than just one function. I've cut project overhead 20-30% per engagement through vendor negotiation, closed a single-point-of-failure identity-verification risk before it could disrupt onboarding, directed integration of an AI-driven cybersecurity tool for continuous vulnerability scanning, and delivered stakeholder reporting throughout a high-visibility product launch that hit 3,000+ users and NGN 2.3 billion+ in transactions within 30 days at 99.99% uptime. I'm currently working toward my PMP certification.

CORE COMPETENCIES

End-to-End Project Delivery (Initiation to Closure) | Project Planning: Timelines, Milestones & Risk | Budget Management & Resource Efficiency | Risk Identification, Mitigation & Cybersecurity Awareness | Stakeholder & Vendor Management | Cross-Functional Coordination (Engineering, Risk/Compliance, Infrastructure, Product, Marketing, Operations, Support) | Executive Reporting & Progress Communication | Agile/Scrum Delivery & Retrospectives | Process Documentation (PRDs, Risk Logs, Post-Mortems)

TOOLS AND TECHNOLOGIES

Jira, ClickUp, Trello, Confluence, Notion, Slack, GitHub, Postman, Figma, FigJam, Google Workspace, Zoho

PROFESSIONAL EXPERIENCE

Project & Product Manager

June 2025 - Present

PU Digital Merchant (PU-Exchange), Fintech - Contract - Lagos, Nigeria

- **Owned delivery end to end.** Directed project execution for PUEX's public launch (iOS and Android, July 2026) from planning through delivery, hitting all launch milestones and reaching 3,000+ users, NGN 2.3 billion+ in wallet transactions, and \$950,000+ in trades within 30 days at 99.99% uptime.
- **Identified and mitigated risk before it became an incident.** Closed a single-point-of-failure KYC risk by sourcing and integrating a second identity-verification provider, delivering dual-provider redundancy across all verification tiers, and directed design of an automated fraud watchlist and multi-entity blacklisting system that blocked two fraud incidents with zero funds lost.
- **Strengthened platform security proactively.** Researched AI-driven cybersecurity tools and directed integration of one connected to the platform that gives the engineering team continuous, real-time vulnerability scanning across the app.
- **Managed vendor relationships and budget-relevant contracts.** Negotiated terms with third-party API and KYC providers and onboarded a second payment channel (Payaza) to remove single-provider dependency, while maintaining 99.99% platform uptime and a 0.08% crash rate.
- **Coordinated across technical and business teams.** Ran Agile ceremonies, including sprint planning, stand-ups, and retrospectives, for a cross-functional delivery team of 4 (Backend, Mobile, Frontend/Admin, QA), in coordination with Design, Marketing, Operations, Compliance, and Support, using retro findings to continuously tighten post-launch delivery.
- **Reported progress to leadership consistently.** Delivered biweekly status reports to the CEO covering timeline, risk, and delivery outcomes, stepping up to daily or weekly updates when urgency required it, keeping leadership aligned throughout a high-visibility launch.

Head of Product & Operations

July 2022 - December 2025

Soft-Web Digital Ltd. (Software Development Firm) - Hybrid - Lagos, Nigeria

- **Directed end-to-end delivery across a 20+ person cross-functional team.** Led developers, designers, DevOps engineers, and QA specialists across B2B and B2C platforms in Fintech, Trading, and E-commerce, achieving 95% on-time execution across all major launches through structured feedback loops and measurable KPIs.
- **Managed budgets and vendor contracts directly.** Cut project overhead 20-30% per engagement by negotiating contract rates with external developers and designers, saving NGN 5 million+ cumulatively without compromising delivery quality.
- **Launched Ecstasy, a fintech bill-payment app, and scaled it to 100,000+ active users within 24 months while processing over NGN 50 million in annual utility payments.**
- **Standardized risk and process documentation.** Built PRDs, FRDs, risk logs, and post-mortems as standard practice, reducing scope ambiguity and improving executive decision-making across every engagement.

Project Manager

June 2021 - June 2022

Soft-Web Digital Ltd. (Software Development Firm) - Hybrid - Lagos, Nigeria

- Delivered two-thirds of initial high-impact web and mobile projects on schedule, managing cross-functional dependencies between engineering and design.
- **Built structured tracking from the ground up.** Moved a team of 12 from ad hoc coordination to a structured Trello-based task management system, improving visibility and accountability, and built the organization's first PRD and issue-log templates, later scaled to support 15+ clients.

Operations Manager

February 2020 - May 2021

DMY Enterprise (Healthcare Supply) - Lagos, Nigeria

- **Managed vendor contracts and budget efficiency in a non-software operating environment.** Negotiated vendor contracts and implemented strategic pricing models, contributing to a 20% boost in sales, while streamlining core operational workflows to lift client retention by 25% and maintain a 98% on-time delivery rate across logistics operations.

KEY PROJECT HIGHLIGHTS

PUEX - Crypto & Gift Card Trading App

Directed planning through delivery of a fintech trading app launch, including third-party vendor integration and risk mitigation; reached 3,000+ users, NGN 2.3 billion+ in wallet transactions, and \$950,000+ in trades within 30 days. [Google Play](#) | [App Store](#) | [Website](#)

Ecstasy - Bill Payment & Gift Card Trading App

Directed delivery of a fintech utility app from backlog through release; grew to 100,000+ active users within 2 years. [Google Play](#) | [App Store](#)

Billporte - Fintech Super App (Bill Payment, Flight Booking & Trading)

Led end-to-end development of a multi-feature fintech app integrating Safehaven, Flutterwave, Reloadly, Vtpass, and Giftbills APIs, coordinating provider risk and failure handling across five separate vendors. [Google Play](#) | [App Store](#) | [Website](#)

Floattthr - HR Support Platform

Managed multi-platform development of a web-based platform connecting businesses with dedicated HR managers for team structure and operational scaling, outside the fintech sector. [Website](#) | [Web App](#)

Pelbliss - Service Listing & Events Platform

Drove web buildout and optimized vendor listing and event creation workflows, delivering within scope, budget, and timeline. [Website](#) | [Web App](#)

EARLIER CAREER

Medical Laboratory Scientist & Junior Lecturer 2016 - 2020

University College Hospital, Ibadan & IRGIB-Africa University, Benin Republic

Performed diagnostic testing across hematology, microbiology, and clinical chemistry (98%+ accuracy) and mentored junior scientists on procedure and safety protocols, building a foundation in structured process rigor that carries directly into disciplined project execution and risk management.

CERTIFICATIONS & TRAINING

- PMP Certification, Project Management Institute - In Progress with Certification Edge
- Google Project Management Diploma, Coursera
- Project Management Training Certificate, The Open University, UK
- Effective Leadership Certificate, HP LIFE
- IT for Business Success, HP LIFE
- Digital Marketing Fundamentals, Google
- Soft Skills Training, Jobberman

EDUCATION

M.Sc. Biomedical Laboratory Sciences 2017

IRGIB-Africa University, Benin Republic

B.Sc. Biomedical Laboratory Sciences 2015

IRGIB-Africa University, Benin Republic
